Consortium to develop 100-MW green hydrogen project in Germany

Mitsubishi Heavy Industries Ltd., Royal Dutch Shell PLC, Vattenfall AB and Wärme Hamburg GmbH signed a letter of intent to explore how to jointly produce hydrogen from wind and solar power at Vattenfall's Moorburg power plant in Hamburg, Germany, and utilize the fuel in the local area.

200kWh Battery Cluster

Germany's Green Energy Ambitions Spark A Transformative

Germany's 2022 energy reform bill, the Easter Package, is the largest revision to the country's energy policy in decades, and centers on a massive expansion in renewable energy. Its ambitious target is to increase the share of renewable energy in Germany's gross electricity consumption to 80% by 2030 from the previous target of 65%.
