### Greentech sells 50% in 13.5 MW of wind parks in Germany

June 19 (SeeNews) - Danish renewables firm Greentech Energy Systems A/S (CPH:GES) said on Thursday it is selling its 50% stake in two German wind farms totalling 13.5 MW to a unit of investment firm Brancor Capital Partners ApS.

### About greentech , PV-specialist

greentech was founded in 2008 by Ingo Rehmann with a focus on photovoltaic services and initially specialized in the commercial and technical management of PV power plants. As an experienced and independent service provider with modular services, greentech grew rapidly in these areas and additionally expanded its competencies in owner's

## Fuel cells Instead of diesel generators: Does the green

Decentralised energy systems with renewable hydrogen and fuel cells - often in combination with battery storage systems - ideally reconcile local value creation and environmental benefits. The results of the EXI publication show particularly promising future prospects for the international use of the technology.

**TAX FREE**

**Product Model**  
HJ-ESS-215A(100KW/215KWh)  
HJ-ESS-115A(50KW 115KWh)

**Dimensions**  
1600\*1280\*2200mm  
1600\*1200\*2000mm

**Rated Battery Capacity**  
215KWH/115KWH

**Battery Cooling Method**  
Air Cooled/Liquid Cooled

## TAT-2020-Klima-Zukunftsbranche-Greentech

Between 2000 and 2021, the number of jobs in the renewable energy sector roughly tripled, with some 344,100 people employed in this area in 2021. Environmental technology and companies specialising in this field are playing an increasingly important role in Germany as a whole.

## greentech.energy , Photovoltaik Spezialist
