Nomad Solar Panels

Our Nomad 400 solar panels give you lots of power in a lightweight, portable design. Chain

four together for 1600 W of solar and fast charging. Take them on the road to recharge your Yeti indefinitely or use them at home to collect emergency power when the grid is down. For use with Yeti PRO 4000 only.

How can I tell if my Nomad 27 is working?

If a Single cell is getting less light than the rest, it can become the weak link and pull down the power output of the rest of the solar panel. When solar charging, arrange the panels so every cell has the same amount of sun with no ...

How can I tell if my Nomad 27 is working?

If a Single cell is getting less light than the rest, it can become the weak link and pull down the power output of the rest of the solar panel. When solar charging, arrange the panels so every cell has the same amount of sun with no shadows from cords or grass. Even haze, fog, clouds and smoke can reduce the power a solar panel can put out to

Solar

Harness the sun's energy wherever you are, with portable solar panels. Whether you're charging a phone or refueling a power pack, solar power has you covered. Our line of portable monocrystalline solar panels is rugged, reliable, and easy to use.
