Grenada powers ahead with its first utility-scale wave energy park

Swedish wave energy company Seabased has signed a memorandum of understanding (MoU) with the Government of Grenada and SIDS DOCK to establish Grenada's first utility-scale wave energy park. Source: Seabased. Unveiled on November 15 in Baku, the project will kick off with a 2 MW pilot phase, with plans to scale up to a minimum of 10 MW.

Grenada Expands its Renewable

Energy Penetration

The PURC launched its pilot SSIPP programme in 2021, allowing for investments in the renewable energy space. This programme sought greater penetration of green energy into Grenada's national grid, which will be facilitated by the Grenada Electricity Services Limited (GRENLEC).

An analysis of Grenada's power sector and energy

A summary and analysis of past research into renewable sources of energy (RES) underscore the potential for power production from RETs in Grenada. Discover the world's research 25+ million

GRENADA

This document presents Grenada's Energy Report Card (ERC) for 2021. The ERC provides an overview of the energy sector performance in Grenada. The ERC also . includes energy efficiency, technical assistance, workforce, training and capacity building . information, subject to the availability of data.

grenada energy storage power station planning

Capacity Planning of PV-Storage Power Station with Hybrid Energy Storage Aiming at the capacity planning and operation economy of the new PV-storage power station participating in the multi-time scale frequency modulation service of the power grid, an optimal operation strategy based on the life cycle model of frequency modulation resources is

Grenada seeking bids for 15.1 MW of airport solar

Grenada's Public Utilities Regulatory Commission is seeking expressions of interest for 15.1 MW of solar at Maurice Bishop International Airport. The project may also include a 10.6 MW/21.2 MWh
