Lightwork Power Caribbean

Lightwork Power Caribbean is based in Grenada and we design and install systems that are designed with all the Caribbean considerations, codes and characteristics in mind. Quality equipment installed by our qualified electricians with zero shortcuts.

Why Grenada had to nationalise its electricity for \$60m to ...

With abundant sunshine and three active volcanoes, the Caribbean islands that make up Grenada are perfect for solar and geothermal power. Yet, despite the government's concern

Grenada seeking bids for 15.1 MW of airport solar

Grenada's Public Utilities Regulatory Commission is seeking expressions of interest for 15.1 MW of solar at Maurice Bishop International Airport. The project may also include a 10.6 MW/21.2 MWh

Grenada's Renewable Energy Options - GRENLEC

Potential for Grenada . Solar Photovoltaic (PV) A solar electric system converts sunlight into electricity using solar cells. Solar panels can be mounted on rooftops or the ground, and convert particles of light energy, known as photons, into direct current (DC) electricity.

about climate change, they get nearly all their electricity from expensive and ...

Blue Dawn Solar , Saint George's

Blue Dawn Solar, Saint George's, Grenada. 1,621 likes · 1 talking about this · 1 was here. Blue Dawn Solar is a Grenada based Solar Energy provider. Offering complete solutions for Off Grid a

Gov't assesses damages to Carriacou's US\$3.2M Solar PV Plant

The Government of Grenada is in the process of forming a Task Force to assess damages to the Solar PV plant in Limlair, Carriacou, which featured over 1,400 solar panels, all of which are in ruins following the passage of Hurricane Beryl.

Grenada Seeks EOIs for Grid-Scale Solar and Storage Project

The project aims to increase Grenada's reliance on renewable energy and reduce its dependence on fossil fuels. PURC is seeking an independent power producer (IPP) to develop and operate either a 15.1MW standalone solar PV plant or a solar-plus-storage plant combining 15.1MW of solar PV and a 10.6MW/21.2MWh battery energy storage system (BESS).

Climate Resilience Portal - Ministry of Climate Resilience, The

This portal serves as Grenada's central climate finance hub, offering a comprehensive repository of resources dedicated to Grenada's climate change initiatives and funding opportunities. Whether seeking data on climate projects, funding sources, or strategies for sustainability, this platform provides an invaluable resource for navigating Grenada's dynamic ...

Grenada procuring grid-scale solar and storage project at airport

Grenada is targeting 100% renewable energy in electricity and transport sectors by 2030. Diesel accounts for the majority of Genlec's generation, providing 50MW from 15 units. There is also 3.6MW of customer-sited solar PV alongside 1.1MW of Genlec-owned solar PV.
