Guam lithium battery for house

Solar and Battery Storage System

Generation Renewable - Guam and Sunnova are now offering Solar Energy Systems with Battery Storage Systems. This means that your back up panel board in your home will have power even when utility power isn't available, like during power outages or during and after a storm.

Guam solar Electricity Bill : r/guam

Depending on your house power needs will determine how much power your solar panels needs to generate. How much power you use from sunset to sunrise will determine battery size. Just go small, learn, then upgrade from there.

Battery Shipping Policy to Guam : r/guam

I think there's a regulation concerning sending lithium ion batteries to Guam or anywhere that requires air shipping? I think the only options to send lithium ion batteries to Guam are via Fedex or UPS.

WHY does Guam have an embargo on all lithium batteries? : r/guam

Lithium batteries are extremely volatile if the packaging has been breached. If it's in the cargo of an airplane and not packaged correctly, the explosion or fire that ensues, will be catastrophic. They only allow it in carry on baggage, so if it does start a fire, the flight attendants can handle it, and put the fire out.
