SAVE MONEY!

PV Systems

Photovoltaic (PV/Solar) system is an arrangement of components designed to supply usable electric power for a variety of purposes using the sun as the power source. The major components are the solar array, mounting and inverter, which are designed to continually produce electricity and will function for several decades with very little

Solar and Battery Storage System

Generation Renewable - Guam and Sunnova are now offering Solar Energy Systems with Battery Storage Systems. This means that your back up panel board in your home will have power even when utility power isn't available, like during power outages or during and after a storm.

Residential PV Systems

Use our solar calculator to see what size system you need for your home. Contact us today to schedule a free site inspection to get started on saving you cash in your pocket, switching to clean renewable energy and making our island a greener place one roof at a time!

Guam Solar & Battery Storage Distributor

In Guam, homeowners and businesses can benefit from several state and local government incentives to install solar panels and battery storage systems. The Guam Power Authority (GPA) offers a Net Metering Program, which allows solar system owners to receive credits for the excess electricity they generate and feed back into the grid.

Residential Solar Solutions

Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power bills, increase the value of your home, and reduce greenhouse gas emissions.
