The sustainable Oyster

"The solar power panels account for 13m² of space and generate 2,174 Watts which is connected via four solar regulators to the primary 500Amp DC Bus. From there, three 24/4000 inverters create 12,000 Watts of power for the primary 110Amp AC Bus which is used for the yacht's main AC load, including watermarking and air-conditioning."

Power Plant in Contuboel Village , SOLAR23

Contuboel, Guinea-Bissau's local community, was in a desperate need of an affordable solution to electricity access. SOLAR23 was awarded the

contract for the supply, delivery, and commissioning of a 106 kWp solar power plant - with financial assistance from OFID's Energy Poverty Operations and the European Commission's ACP-EU Facility

In Pursuit of a Green Energy Economy: Guinea-Bissau Explores ...

According to the ECOWAS Center for Renewable Energy and Energy Efficiency, Guinea-Bissau is the perfect destination for the testing and demonstration of grid-connected and mini-grid solar photovoltaic (PV) systems.

Start

IMPAR is working in Guinea Bissau since 1991 supplying and installing essential services in energy, water and communication. We install solar energy systems all over the country, islands included, having hundreds of solar pumps already installed.
