Push towards solar energy

To propel efforts and push towards sustainable, economically-friendly energy solutions, the Guyana Utility-Scale Solar Photovoltaic programme (GUY SOL) is being fully utilised, and is on target to complete the construction of solar farms at Linden, on the Essequibo Coast, and Berbice, which, in total, will have a generation capacity of 33MW.

Residential » New Age Solar

Enter The Mighty Power System™, a prefabricated transportable solar and battery-powered generator, offering homeowners an easy to use power source during emergencies.

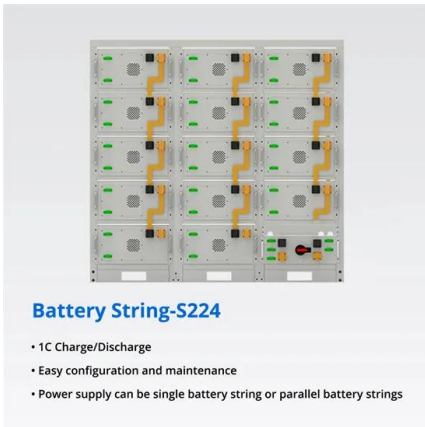

Guyana , SunTerra Energy Solutions

Guyana has a high solar potential and set a renewable energy mix target of 100% by 2040. Presently Guyana energy mix is comprised of just 9% renewable energy on the public grid. Its electrical demand peaks at 247MW and its electricity ...

Solar - Guyana Energy Agency

In Guyana, solar energy is used for several purposes, including drying agricultural produce, irrigation, ICT, and to improve electricity access in rural areas. Under the Hinterland ...

Mega solar power projects underway as Guyana seeks

Through the use of US\$83.3 million accumulated from Norway to keep Guyana's rainforests intact, the new solar farms promise to add much-needed solar power, an environmentally-friendly source of power, to Guyana's grid.

GEA recorded major progress in 2023, advances ...

GEA supported the implementation of a massive electrification project to supply, deliver and distribute 30,000 Solar Home Energy Systems to Hinterland and riverine communities in Guyana. A total of 26,398 units were ...

GEA recorded major progress in 2023, advances renewable energy ...

GEA supported the implementation of a massive electrification project to supply, deliver and distribute 30,000 Solar Home Energy Systems to Hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

Sod turned for largest solar project on Essequibo Coast

By 2026, the GUY SOL initiative will install 33 MWp of solar photovoltaic (PV) systems nationwide, supported by a US\$83.3 million investment. This includes additional ...

Home » New Age Solar

Learn more about how an investment in portable solar power will generate income for your community while being prepared to relocate the Mighty Power System where needed during times of emergency.

Sod turned for largest solar project on Essequibo Coast

By 2026, the GUYSQL initiative will install 33 MWp of solar photovoltaic (PV) systems nationwide, supported by a US\$83.3 million investment. This includes additional social programs aimed at benefiting local communities across Guyana. ---

Solar - Guyana Energy Agency

In Guyana, solar energy is used for several purposes, including drying agricultural produce, irrigation, ICT, and to improve electricity access in rural areas. Under the Hinterland Electrification Programme, in excess of 19,000 solar PV systems had been installed in ...
