US\$38M contract signed to construct solar farms across Guyana

Guyana's solar capabilities are set to receive a significant boost with the signing of a US \$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese company known as SUMEC to construct solar farms in Regions Two, Five and Six.

US\$38m contract signed for solar farms in Regions Two, Five, Six

Guyana's solar capacity is set to receive a significant boost with the signing of a US\$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese company

Guyana Invest

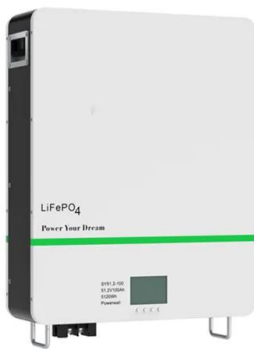

Welcome to the Guyana Office for Investment where our country's Investment Platform is based on a democratic government, transparency and accountability and the belief in family, faith and freedom as demonstrated by our multi ethnic, multi religious society. Solar Farms Waste to Energy Operation to serve the Oil and Gas Industry Waste to

Guyana gets US\$83.3M for renewable energy projects

The non-reimbursable funds will see investments in eight utility-scale, photovoltaic solar projects

totaling 33MWp (Megawatt peak) with associated 34MWh energy storage systems distributed across three areas in the country under the Guyana Utility Scale Solar Photovoltaic Programme (GUYSOL).

Mega solar power projects underway as Guyana seeks ...

Through the use of US\$83.3 million accumulated from Norway to keep Guyana's rainforests intact, the new solar farms promise to add much-needed solar power, an environmentally-friendly source of power, to Guyana's ...

Local business transitions to solar energy, electric vehicle for

A team of engineers from the Guyana Energy Agency (GEA) conducted the load profiling of the building to ensure optimal sizing and performance of the solar photovoltaic (PV) system. Today, this renewable energy investment benefits approximately thirty ...

Sod turned for largest solar project on Essequibo Coast

Prime Minister Mark Phillips, along with regional officials and representatives from the Guyana Utility Scale Solar Photovoltaic Programme (GUYSOL), today turned the sod for the construction of a new solar farm in Onderneeming on the Essequibo Coast.

Mega solar power projects underway as Guyana seeks to meet ...

Through the use of US\$83.3 million accumulated from Norway to keep Guyana's rainforests intact, the new solar farms promise to add much-needed solar power, an environmentally-friendly source of power, to Guyana's grid.

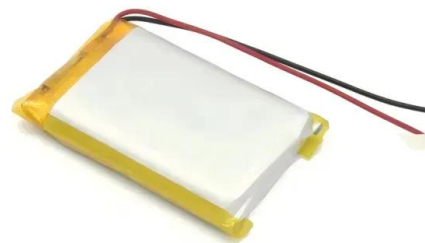

US\$38m contract signed for solar farms in Regions ...

Guyana's solar capacity is set to receive a significant boost with the signing of a US\$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese company

US\$38M contract signed to construct solar farms in

Guyana's solar capabilities are set to receive a significant boost with the signing of a US \$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese company known as SUMEC to construct solar farms in Regions Two, Five and Six.

US\$38M contract signed to construct solar farms in Regions

opportunities in Guyana

electric grid system is not available and buildings are sparsely scattered. The climate of Guyana makes solar energy highly feasible for both individual homes and larger solar projects, and additional opportunities exist for increased manufacture of solar panels to capture solar energy.
