Heard and McDonald Islands - Geotourism Guide

Heard Island and McDonald Islands are located in the Southern Ocean, approximately 1,700 km from the Antarctic continent and 4,100 km south-west of Perth. As the only volcanically active subantarctic islands they 'open a window into the earth', thus providing the opportunity to observe ongoing geomorphic processes and glacial dynamics.

Heard and McDonald Islands McDonald Islands

The Heard Island and McDonald Islands group can be described as the wildest place on earth - a smoking volcano under a mantle of snow and glacial ice rising above the

Heard Island and McDonald Islands

The islands are a territory (Territory of Heard Island and McDonald Islands) of Australia administered from Hobart by the Australian Antarctic Division of the Australian Department of Climate Change, Energy, the Environment and Water.

Heard and McDonald Islands

Private vessels are known to visit Heard Island (and likely to visit McDonald Islands) with no biosecurity assessment, implementation or enforcement. Sailing vessels depart from South Africa and the South African and/or French sub-antarctic islands en route to Heard Island and are considered a high biosecurity risk (IUCN Consultation, 2020b).

Heard and McDonald Islands, Australia , SpringerLink

The activity on the McDonald Islands group resulted in the island doubling in size and increasing in elevation by about 100 m (Australian Government 2016). Along with the ...
