Heard and McDonald Islands

HEARD AND MCDONALD ISLANDS AUSTRALIA
Heard Island and the McDonald Islands are in the Southern Ocean, approximately 4,100 km south-west of Perth and 1,700 km from the Antarctic continent. Their distinctive conservation value is as one of the world's rare pristine island ecosystems which have virtually no ...

(PDF) Heard Island and the McDonald Islands: A window into ...

We present the results of hydroacoustic flare observations around the underexplored volcanically active Heard Island and McDonald Islands on the Central Kerguelen Plateau.

Heard and McDonald Islands, Australia , SpringerLink

The activity on the McDonald Islands group resulted in the island doubling in size and increasing in elevation by about 100 m (Australian Government 2016). Along with the French Kerguelen group of islands 440 km to the northwest, Heard and McDonald Islands form the only exposed parts of the submarine Kerguelen plume (Australian Government 2016).

Heard & McDonald Islands, Australia , Smithsonian Ocean

The Heard & McDonald Islands site in Australia was inscribed on the World Heritage List in 1997. As the only volcanically active sub-Antarctic islands, Heard and McDonald provide the ...

Human activities - Heard and McDonald Islands

Due to the extreme isolation of Heard Island and McDonald Islands (HIMI), together with the persistently severe weather and sea conditions, human activities in the region have been, and remain, limited.

Heard and McDonald Islands , World Heritage Outlook

The Territory of Heard Island and McDonald Islands contains outstanding examples of active geological processes continuing in a largely undisturbed environment, free of local anthropogenic impacts. The physical processes provide an understanding of hotspot magmatism in an intraplate setting and of atmospheric and oceanic warming.

Heard and McDonald Islands

The distinctive conservation value of Heard and McDonald - one of the world's rare pristine island ecosystems - lies in the complete absence of alien plants and animals, as well as human impact.

Heard and McDonald Islands McDonald Islands

The Australian Territory of Heard Island and McDonald Islands lies in a remote and stormy part of the globe, near the meeting-point of Antarctic and temperate ocean waters.

Heard and McDonald Islands, Australia , SpringerLink

The activity on the McDonald Islands group resulted in the island doubling in size and increasing in elevation by about 100 m (Australian Government 2016). Along with the ...

Heard & McDonald Islands, Australia , Smithsonian Ocean

The Heard & McDonald Islands site in Australia was inscribed on the World Heritage List in 1997. As the only volcanically active sub-Antarctic islands, Heard and McDonald provide the opportunity to observe ongoing geomorphic processes and glacial dynamics.
