Plans for New \$110.6 M Solar Project Revealed in Mozambique

A US\$110.6 million solar project in Mozambique aims to support the country's goal of universal electrification by 2030. Located in Moamba, the solar project will reduce reliance on hydropower, create jobs, and boost the local economy.

Maputo Province to Get 60 MW Solar Farm Costing EUR102M

The state-owned company Eletricidade de Moçambique plans to invest \$110.6 million (EUR102 million) with private companies to install a 60 MW solar power plant next to the Corumana dam in Maputo province.

Mozambique Launches New Solar PV and Battery Storage Tender ...

Mozambique's Ministry of Mineral Resources and Energy has announced a tender for solar PV and battery storage projects, funded by a German grant. Engie Energy Access connects over 220,000 families to solar energy, enhancing ...

On-grid, off-grid: the double-sided solar solution for Mozambique

In a new monthly column for pv magazine, SolarPower Europe describes how Mozambique may take full advantage of its huge solar potential by implementing its recently launched

Mozambique: solar investment opportunities

This report looks into the investments opportunities for solar deployment in Mozambique. The report focuses on the energy context, relevant actors and the regulatory framework for investments in renewables.

Solar PV + BESS

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy storage tenders in Mozambique under the GET FIT Programme. It covers program ...

Mozambique Launches Tender For Solar PV And Battery

The Ministry of Mineral Resources and Energy of Mozambique, funded by the German Government through KfW, has announced a tender for solar photovoltaic and battery energy storage projects, aiming to enhance the country's renewable energy infrastructure. Applications are due by September 13, 2024.

Solar PV + BESS

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy storage tenders in Mozambique under the GET FIT Programme. It covers program and tender specifics, participation criteria, timelines, and opportunities for developers, sponsors, and financiers to contribute

On-grid, off-grid: the double-sided solar solution for ...

In a new monthly column for pv magazine, SolarPower Europe describes how Mozambique may take full advantage of its huge solar potential by implementing its recently launched Renewable Energy

Mozambique Renewable Energy Potential

Mozambique has an abundant and unexploited solar resource which could be harnessed for utility scale as well as residential PV for both on/off grid electrification. The following map shows the global horizontal irradiation profile of Mozambique which varies between 1,785 and ...

Game-changing generation assets for Mozambique

Samir Salé, country and business development director of Globeleq, talks to The Energy Year about fast-tracking renewables projects in Mozambique and the potential of solar generation and battery storage in the country's energy mix.
