Overview

SAN FRANCISCO – Today, Clearway Energy Group (“Clearway”) announced that it closed financing and began construction on its Honeycomb portfolio, which comprises four battery energy storage systems (BESS) projects adjacent to an operating solar energy portfolio owned and operated by Clearway. Each. In March, Clearway Energy Group announced the close of financing and start of construction on its \$605 million, 320 megawatt (MW) Honeycomb portfolio, consisting of four battery energy storage systems (BESS) located in Utah’s Beaver and Iron counties. Each 80 MW project will use four-hour Tesla. Each project will use 4-hour Tesla Megapack lithium ion batteries located adjacent to four operating solar power plants. Clearway Energy Group closed financing on a \$605 million portfolio and has begun construction of its Honeycomb energy storage project in Utah. The project includes four 80 MW. Clearway Energy Inc (NYSE:CWEN) has launched the installation of 320 MW battery energy storage systems (BESS) in Utah after closing financing for the USD-605-million (EUR 553.7m) portfolio. Clearway Energy Group’s solar-plus-storage plant in Hawaii. Image by Clearway Energy Group. The US clean. On December 20, 2024, KeyBanc Capital Markets Inc. (KBCM) closed \$605 million in Senior Secured Credit Facilities (the Facilities) for Clearway Energy Group’s (CEG) Honeycomb Battery Energy Storage Systems (BESS) project. Honeycomb includes four BESS projects in Iron and Beaver Counties, UT. The. Clearway Energy Group has successfully closed financing and commenced the construction of its 1,280MWh Honeycomb battery energy storage system (BESS) portfolio in Utah, USA. The Honeycomb portfolio comprises four separate BESS projects, each with 80MW capacity, strategically located adjacent to.
