

Hydroma inc Brazil

Hydroma inc Brazil

Southern Brazil hydrogen systems review

The potential of natural hydrogen gas (H₂) in the southernmost regions of Brazil, specifically Rio Grande do Sul and Santa Catarina, remains largely unexplored. We found free ...

Hydroma - Hydrogen production leader in Africa

A pioneer in the discovery, research, exploration and operation of natural hydrogen in Mali and worldwide, Hydroma also actively develops green hydrogen and ammonia production, storage, transport and distribution projects in West Africa and Canada for local use and massive exports toward Europe and international markets.

Hydroma - Hydrogen production leader in Africa

A pioneer in the discovery, research, exploration and operation of natural hydrogen in Mali and worldwide, Hydroma also actively develops green hydrogen and ammonia production, storage, ...

Southern Brazil hydrogen systems review

The potential of natural hydrogen gas (H₂) in the southernmost regions of Brazil, specifically Rio Grande do Sul and Santa Catarina, remains

largely unexplored. We found free H₂ occurrences identified in the intracratonic Mesozoic Paraná Basin, recognized in four formation tests performed in former exploratory wells.

The natural hydrogen field without pressure depletion

After the successful pilot, Petroma Inc. (currently known as Hydroma Inc.) initiated a 24-well exploration campaign in 2017 and 2018, which resulted in 18 positive wells for hydrogen and a much better understanding of ...

The natural hydrogen field without pressure depletion

After the successful pilot, Petroma Inc. (currently known as Hydroma Inc.) initiated a 24-well exploration campaign in 2017 and 2018, which resulted in 18 positive wells for hydrogen and a much better understanding of the geology and hydrogen trapping system.

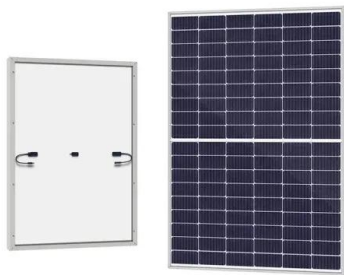

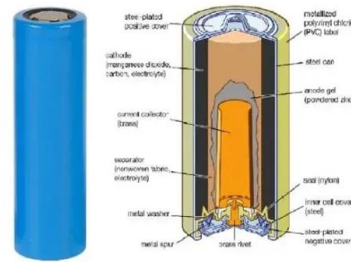

Natural hydrogen: the new frontier

While it remains to be seen whether Hydroma Inc.'s discovery at Bourakébougou can be reproduced elsewhere, the Mali case represents a significant milestone in the natural hydrogen business. In the Sao Francisco ...

About Us - Who We Are - Hydroma

As owners of 100% of Block 25, 60 km from Bamako, Hydroma is the world pioneer in the research, discovery, extraction and exploitation of natural hydrogen, also called "white hydrogen".

Hydroma Inc: a pioneer in natural hydrogen

Convinced of the potential of this new low-carbon energy source, Hydroma has been working for the last 15 years to promote natural hydrogen as a "game changer" for humanity: ? In 2012

Natural hydrogen: the new frontier

While it remains to be seen whether Hydroma Inc.'s discovery at Bourakébougou can be reproduced elsewhere, the Mali case represents a significant milestone in the natural hydrogen business. In the Sao Francisco Basin, Brazil, natural hydrogen seeps at volumes exceeding a few hundred kg per day
