Ihi terrasun solutions Ukraine

IHI Terrasun Solutions

IHI Terrasun Solutions specializes in energy storage integration, power plant software, and field services within the energy sector. The company offers solutions that include system design and implementation, operations and maintenance services, and performance guarantees for large-scale energy storage systems.

2022 review: BESS technology providers IHI Terrasun, LS Energy

This year, IHI Terrasun launched our next generation power plant software for control, advanced diagnostic and monitoring of storage and solar-plus-storage systems. This solution allows for vendor-agnostic integration as well ...

System integrators have the keys to servicing BESS assets too

System integrators are critical to the successful delivery and commissioning of a battery energy storage system (BESS) project, but they are perhaps also best-placed to service the asset once its in operation, argues Ray Saka of IHI Terrasun.

Energy storage integration, software, field services , IHI Terrasun

Leveraging decades of experience in energy

storage integration, IHI Terrasun creates transformative design and service solutions for energy storage projects. We develop power plant software and provide engineering services for the energy storage projects that we integrate into the electric grid.

A year in review: for IHI Terrasun, 2022 is the dawn of incredible

We're looking at an incredibly strong demand for energy storage aided by the new Inflation Reduction Act (IRA) and the war in Ukraine has made clear the need for dispatchable clean energy, not just in Europe, but worldwide.

IHI Terrasun Solutions Company Profile

IHI Terrasun Solutions (formerly known as IHI Energy Storage) is a company that provides solar and storage systems integration and lifecycle services. The company develops and installs complete energy storage systems (ESS) supported by intergrated software and hardware.
