## Insensys ltd Bonaire Sint Eustatius and Saba

---

### Timeline - Insensys

With VC backing, Insensys designed and manufactured the masts of the Maltese Falcon super-yacht, embedding optical sensors within. Project established the business as we investigated other potential markets for optical sensing.

### Insensys Limited

Insensys was founded in 2002, and provides its customers with fibre-optic load measurement systems for wind turbine active control, structural health monitoring and test and measurement applications. Its products are designed to offer high performance and reliability specifically for the wind energy market sector and have been proven through

### About us

Insensys is a fast growing British success story in fibre optic sensing technologies. We were founded 20 years ago as a manufacturer of specialist carbon fibre super yacht masts, we transitioned in 2008 to focus on our core business: Fibre optic sensing technology for offshore wind turbine control.
