

# Interpretation of the preferential tax policies for solar container enterprises

## Overview

---

In July 2025, Congress passed budget reconciliation legislation that significantly altered clean energy tax credits for solar and wind projects. This article explores the impact of the bill for commercial & industrial solar and storage projects. In August 2022, Congress passed the Inflation Reduction Act (IRA), which included dozens of major updates and changes to the tax policies impacting clean energy businesses. This historic legislation has already driven significant new investments in solar and energy storage thanks to long-term. The tax system often is used to provide incentives for particular types of investments the government wants to encourage. These incentives raise tax planning issues that go well beyond those involved in general structural, choice-of-entity, and other financing considerations, and create the. Taxes and Incentives for Renewable Energy is designed to help energy companies, investors and other entities stay current with government policies and programs that support renewable energy from wind, solar, biomass, geothermal and hydropower. Compiled by KPMG's Global Energy & Natural Resources. Abstract: The purpose of this study is to deeply explore the influence of preferential tax policies on enterprise accounting decision-making, and to conduct an empirical study from three aspects: capital structure, investment decision-making and earnings distribution strategy by establishing a. The Notice, issued on August 15, 2025, provides guidance on when construction of a wind or solar facility is considered to have begun, which is relevant for determining whether a facility qualifying for tax credits under Section 45Y or Section 48E of the Internal Revenue Code must be placed in. In July 2025, Congress passed budget reconciliation legislation that significantly altered clean energy tax credits for solar and wind projects. This article explores the impact of the bill for commercial & industrial solar and storage projects. In July 2025, Congress passed budget reconciliation.
