SOLAR HOLDING LLC

We focus on importing, selling, and installing solar power systems and water heaters. We started operations on March 17, 2020, and we are known for our quality service. We use Longi panels, a top brand with no direct competitors, and our converters ...

Ready Solar Plants

A hybrid solar system is a blend of both on-grid and off-grid solar systems, as it is connected to the grid and incorporates a battery backup. When there is a power supply from the grid, the solar inverter functions as an on-grid inverter. Any surplus power generated after meeting device requirements is channeled into both the grid and the battery.

Our specialists have more than 10 years of experience in the field ...

Solar System Installers in Armenia , PV Companies List , ENF ...

Armenian solar panel installers - showing companies in Armenia that undertake solar panel installation, including rooftop and standalone solar systems. 19 installers based in Armenia are listed below.

Converters / Inverters

All solar systems work on the same principle. First, solar panels convert solar energy into direct current (DC), and the solar inverter converts it into alternating current (AC), which can be used in everyday life. We present 3 types of solar inverters: These systems do not need a battery because they work in combination with the electrical
