

Iraq mobile solar container plant operation announcement

Overview

Iraq is set to open its first industrial-scale solar plant in a vast desert area in Karbala as the government attempts to tackle an electricity crisis that has led to widespread blackouts. Iraq is advancing several solar power projects as part of a plan to meet its electricity needs. This aerial photo shows panels at a newly opened industrial-scale solar power plant in Karbala, Iraq, on September 17, 2025 [Anmar Khalil/AP] Iraq is set to open its first industrial-scale solar plant in Baghdad (IraqiNews.com) – Iraq is set to inaugurate its first utility-scale solar power plant with a capacity of 250 megawatts (MW) by the end of the current year. Minister of Oil Hayan Abdul Ghani made the announcement today, Sunday (July 27, 2025), highlighting a significant step in the nation's. Total has this month begun site preparation for its 1GW solar plant in Iraq's Basra province, part of its \$27bn 'Gas Growth Integrated Project (GGIP)' signed in mid-2023 (MEES, 14 July 2023). The solar capacity will be built in four stages near the Total-operated Ratawi oilfield, with Iraqi. The first phase of the Karbala solar power plant, totaling 22 MW, is now online. Its capacity is expected to reach 75 MW within the next two moves, ahead of a final 300 MW target. Image: Prime Minister of Iraq's Media Office The first phase of Iraq's largest solar project to date has begun. Shafaq News/ Iraq's Oil Ministry is ramping up efforts to integrate solar power into its energy system to reduce fuel consumption at oil facilities and boost renewable output. Deputy Prime Minister and Oil Minister Hayan Abdul-Ghani told Shafaq News that key oil facilities will soon be linked to.
