Tessolar Designs Solar Module Mounting System Using Simulation

...

Company profile for Mounting System, Roof Attachments manufacturer Tessolar Inc. - showing the company's contact details and products manufactured.

Tessolar, Inc.

Tessolar's patented technology provides tool-free, factory line efficient PV system installation with precise snap-fit joints that meet or exceed PV industry standards for strength, durability and ...

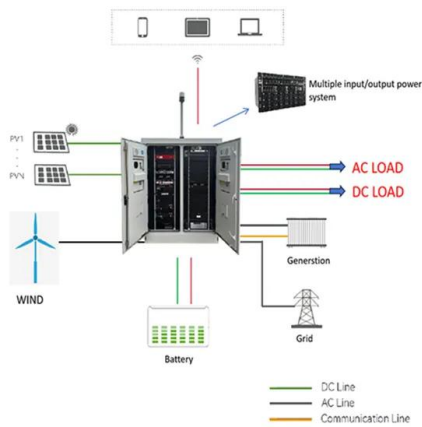

tessolar inc. , Woburn, MA, USA Startup

Tessolar offers the industry's simplest solar installation system anchored by simple, low cost, plastic composite mounting hardware for roof-top systems. The result is up to 35% lower cost of solar-generated electricity. ...

Tessolar, Inc.

Tessolar's patented technology provides tool-free, factory line efficient PV system installation with precise snap-fit joints that meet or exceed PV industry standards for strength, durability and safety.

SOLIDWORKS Entrepreneur: Tessolar Inc. Brightens the Day ...

Tessolar Inc. has designed an innovative way to improve solar photovoltaic system performance and reduce installed system costs. After observing the current way in which solar panels are made, the founders of Tessolar Inc. decided to take action.

Tessolar Designs Solar Module Mounting System Using ...

Tessolar Inc. is a rapidly growing product design and manufacturing company focused on reducing the cost of photovoltaic energy systems through innovative hardware design. The company has developed a suite of solar module mounting hardware that is significantly simpler than conventional mounting hardware.

SOLIDWORKS Entrepreneur: Tessolar Inc. Brightens the ...

Tessolar Inc. has designed an innovative way to improve solar photovoltaic system performance and reduce installed system costs. After observing the current way in which solar panels are made, the founders of ...

tessolar inc. , Woburn, MA, USA Startup

Tessolar offers the industry's simplest solar installation system anchored by simple, low cost, plastic composite mounting hardware for roof-top systems. The result is up to 35% lower cost of solar-generated electricity. Tessolar has established outsourced manufacturing through existing hardware fabricators.

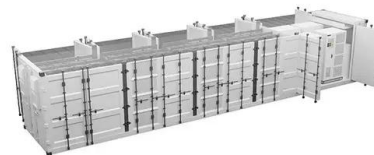

PROJECT PROFILE: Tessolar Inc. (T2M2)

Funding Opportunity: Technology to Market 2
SunShot Subprogram: Technology to Market
Location: Cambridge, MA SunShot Award
Amount: \$858,564 Awardee Cost Share:
\$428,200 ...

PROJECT PROFILE: Tessolar Inc. (T2M2)

Funding Opportunity: Technology to Market 2
SunShot Subprogram: Technology to Market
Location: Cambridge, MA SunShot Award
Amount: \$858,564 Awardee Cost Share:
\$428,200 This project is developing a
commercially relevant integrated module-plus-
mounting hardware system, which is a radically
new approach to making solar modules.

Tessolar

Tessolar products are made with proven aerospace-quality composite materials, allowing for highly engineered, precision features not possible with all-metal products. Tessolar's patent pending technology provides tool-free, high throughput PV system installation with precise snap-fit joints that meet or exceed PV

industry standards for

Tessolar Inc.

Tessolar has updated the 40-year old solar mounting hardware materials and manufacturing processes to enable the use of superior materials and automated, lean manufacturing. The resulting mounting hardware is more efficient, lighter and lower cost than the state of the art.
