The Isle of Man Datacentre in Ballasalla , Domicilium (IO

Situated near Castletown, within the stable offshore jurisdiction of the Isle of Man, it spans 21,000 square feet, with 11,000 square feet currently dedicated to hosting suite cabinets. The data center is designed around the 'smart shelter' concept, ensuring total durability and is equipped to house up to 750 cabinets upon completion of future

Server Racks

Here's a question for you techy people who have server racks. What's your strategy for keeping these things in a highly organized manner with nicely layed out power, network and KVM cables. I've tried a few different ways but I'm still not satisfied.
