At CRESLOW ENERGY SOLUTIONS, we

At CRESLOW ENERGY SOLUTIONS, we are at the forefront of the energy revolution. We manufacture state-of-the-art renewable energy storage solutions designed to harness the power of the sun, wind, and

Energysolutions

At CRESLOW ENERGY SOLUTIONS, we are a collective of innovators, environmental advocates, and engineering enthusiasts

dedicated to reshaping the energy landscape. With a deep-seated passion for sustainability, we've united our expertise to develop and produce cutting-edge renewable energy storage systems.

12V 10AH

Locally manufactured clean energy solutions

Creslow's lithium cells have a safe working temperature for suitability to cold storage and chill room environments. These units have a discharging temperature from -35°C to 65°C and a charging range from 0°C to 65°C. The Creslow team assesses market trends and introduces new products to meet specific demand.

Energy storage specialist opens South African office

"By using the latest technology in our clean energy storage products, we provide an environmentally friendly and sustainable solution for the safe and efficient storage of renewable energy which can be used when required," explains Kriban Govender, Creslow Energy Solutions' managing director.

Locally manufactured clean energy solutions

Creslow Energy Solutions, a local manufacturer of clean energy storage systems, has recently been established in South Africa. "By utilising the latest technology in our clean energy storage products, we provide an environmentally-friendly and sustainable solution for the safe and efficient
