### MPs back push to have battery systems for renewable power

8 · None of the 10 power plants has battery storage, meaning that they cannot be relied upon to boost supply during the peak demand, which occurs 7.30pm and 8.30pm, across the rest of Kenya and 8pm

### The role of grid scale battery energy storage systems in helping Kenya ...

Incorporating BESS facilities into the grid is not a novel concept in Africa, and Kenya can take cues from neighbouring countries such as Malawi (where the Golomoti solar project features a 10MWh BESS) and South Africa (where the Kenhardt projects will boast a battery storage capacity of 1,140MWh) that have already embraced BESS technologies.
