

Latest results of poland s solar container bid

Overview

According to the Polish Energy Regulatory Office (URE), Poland awarded 1.6GW of solar PV projects in this year's renewable energy tender. A total of 129 projects larger than 1 MW were awarded, of which 126 were solar PV projects and the remaining 3 were wind power projects. Figures from Poland's Energy Regulatory Authority (URE) show that solar accounted for 178 of the 181 successful bids awarded under the country's latest renewables auctions. Auctions covering hydroelectric power plants, agricultural biogas plants, and biomass went unresolved due to a lack of valid. Poland contracted 1.67 GW of solar and 82.7 MW of wind capacity in July renewable energy auctions, while tenders for hydro, biogas and biomass projects failed due to a lack of offers. The auction for solar. In this year's auctions, 75.9 TWh of RES energy with a maximum total value just above 31 BPLN were slated for sale. However, the only two resolved auctions led to a total electricity contracted of more than 16 TWh (21 per cent) for less than 5 BPN (16 per cent). All RES auctions included new. According to the Polish Energy Regulatory Office (URE), Poland awarded 1.6GW of solar PV projects in this year's renewable energy tender. A total of 129 projects larger than 1 MW were awarded, of which 126 were solar PV projects and the remaining 3 were wind power projects. In this tender, although. Poland has awarded 1.6GW of solar PV in this year's renewable energy auction, according to the country's Energy Regulatory Office (URE). A total of 129 bids were awarded for projects greater than 1MW, all but three of them for solar PV, with the remaining three going towards wind projects. Less. URE says it has auctioned nearly 307 TWh of renewable energy capacity between 2016 and 2025, awarding nearly PLN 77 billion. The green bars here represent the amount of energy in TWh, while blue bars show the value in PLN billion. The yellow line shows the contracted capacity in MW. (Photo Credit:.

Latest results of poland s solar container bid

RES auctions 2023: President of the URE summarises the results of this year's auctions for sale of electricity from renewable energy sources. The total volume of electricity contracted since ...

LATEST REGULATIONS ON POLAND S SHARED SOLAR ...

Amendments to Poland's renewable energy laws will go into effect in October, permitting the installation of solar systems up to 150 kW in size, without the need for building permits.

Poland Awards 870MW of PV Generation in Its Latest Set of ...

The Polish Energy Regulatory Office (ERO) has released the results of its latest solar and wind auctions that were held in December. Through three auctions, ERO has allocated a total of ...

Solar Leads Poland's Latest Renewable Energy Auction as Wind ...

The auction results reflect ongoing market and regulatory challenges facing Poland's wind energy sector, including land-use restrictions and

permitting delays, while the solar sector continues ...

Poland allocates 1.67 GW of PV in renewables auctions

Auctions covering hydroelectric power plants, agricultural biogas plants, and biomass went unresolved due to a lack of valid offers. Poland 's URE has shared the results of seven ...

Solar Dominates Poland's 2025 Renewable Energy Auction

Solar PV dominated Poland's 2025 renewable energy auctions, winning 126 out of 129 bids, securing 1.67 GW capacity Large-scale solar won the majority of funding, with 95 out of 98 bids ...

Electricity market: President of URE announces the ...

Electricity market: President of URE announces the results of the main auction on the capacity market for deliveries in 2028 - News - The auction was held by PSE ...

Poland Awards 1.6 GW of Solar PV Capacity in Latest National Tender

This year's auction results come as Poland's solar sector continues to expand. As of Q1 2025, the country had nearly 22 GW of installed PV capacity, with 637 MW added in the first quarter

...

2025 RES Auctions: Solar tops wind again

The results of all seven RES auctions for 2025 can be found at the Public Information Bulletin BIP. The required parameters for the 2025 RES auction are established out in the Regulation ...

Poland awards 870MW of solar capacity in latest renewables auctions

In the three auctions, more than 96% of winning bids came from solar players. Announced in late October, the latest auction round is Poland's first that permitted participants to ...

Poland awards 731 MW of onshore wind and solar in undersubscribed

Poland's Energy Regulatory Authority (URE) has selected 486 MW of solar PV and 245 MW of wind capacity in its latest renewable energy auctions concluded in December 2022, with only ...

Poland awards 1.67 GW of solar projects in its latest renewables

The results of the latest auctions conducted by the Urząd Regulacji Energetyki (URE), the Polish Energy Regulatory Authority, confirm the expansion of photovoltaics in the national market.

At the end of 2024, another round of RES auctions allocated support ...

In December 2024, the President of the Energy Regulatory Office carried out 7 auctions allocating support to several types of RES. All auctions were dedicated to new projects, i.e. those ...

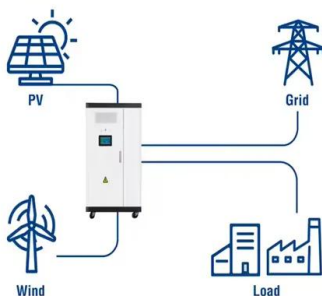

Photovoltaic bids led Poland's 2025 RES auctions

Photovoltaic bids led Poland's 2025 RES auctions. Only two of Poland's seven 2025 RES auctions by the Energy Regulatory Office were resolved, awarding 16 TWh, mostly from PV, for ...

Utility-Scale ESS solutions

Poland's latest tender: 1.6GW PV project won

According to the Polish Energy Regulatory Office (URE), Poland awarded 1.6GW of solar PV projects in this year's renewable energy tender. A total of 129 projects larger than 1 MW were ...

Poland awards 1.67 GW of solar, 83 MW of wind in July auctions

The successful bids represent 1,623 MW of solar PV capacity and 82.7 MW of wind energy capacity. The reference prices were set at PLN 389/MWh for solar and PLN 324/MWh for wind.

Solar Dominates Poland's 2025 Renewable Energy Auction

Solar PV dominated both the successfully concluded auctions this year, winning 126 out of 129 bids in this round, with wind energy installations securing the remaining capacity.

Photovoltaic bids led Poland's 2025 RES auctions

Poland's Energy Regulatory Office resolved only two of Poland's seven 2025 RES auctions, awarding 16 TWh for under PLN 5 billion, with PV bids dominating over wind. Photovoltaics ...

Solar claims all the capacity in Poland's latest small scale renewables

The latest generation capacity auction for small scale solar and wind installations in Poland saw PV developers sweep the board to secure 750 MW of new facilities. The results of the ...

Poland awards 870MW of solar capacity in latest renewables auctions

In the three auctions, more than 96% of winning bids came from solar players. Announced in late October, the latest auction round is Poland's first that permitted participants to submit bids for hybrid ...
