### Automated Storage and Retrieval System (ASRS) , SSI SCHAEFER

At their core, automated storage and retrieval systems, or ASRS for short, are computer-controlled inventory management systems that automate the storage and retrieval of unit loads for picking, packing, and shipping. Solutions can range from miniload or shuttle systems to pallet shuttle to vertical lift modules.

### Automatic storage systems increase dynamics I KNAPP

All this makes the automated storage system the cornerstone of modern logistics processes. As a pioneer and leading supplier of shuttle systems, our smart solutions have the answers to today's demands and trends in intralogistics. Our portfolio is rounded off by a selection of stacker cranes and rapid buffer towers.

### Automated Storage and Retrieval Solutions , Kardex

Kardex combines planning and production know-

how to construct automated storage and retrieval systems (ASRS) using a wide range of proven standardized products, software solutions, and services. With these, we develop an intralogistics concept tailored to your individual needs.
