### Lower 48 Energy BESS

Lower 48 Energy BESS develops battery energy storage systems (BESS). The company's main service involves storing excess electricity in their BESS assets, which is then sold into the National Grid to meet various electricity demands, helping to balance the peaks and troughs of electricity pricing caused by supply and demand imbalances.

### Process , L48 Energy , Battery Energy Storage Systems , Grid Scale

Lower 48 Energy works through each critical stage of the energy storage 'origination process' to complement the efficient dispatch of electricity across the National Grid. The current UK National Grid and Distribution Network Operators grids are aging and suffered from a lack of investment in the transmission capacity.
