Projects that new entrant Kehua has provided BESS or PCS technology for, with one in Brazil in the top left and the three others in China. Image: Kehua. BloombergNEF (BNEF) has launched its Energy Storage Tier 1 list of providers, noting growth in ...

### How the Great Firewall of China Detects and Blocks Fully ...

In early November 2021, the Great Firewall of China (GFW) deployed a new censorship technique that passively detects--and subsequently blocks--fully encrypted traffic in real time. The GFW's new censorship capability affects a large set of popular censorship circumvention protocols, including but not limited to Shadowsocks, VMess, and Obfs4.
