What's happening at Macao's planetarium?

"We can show models of the solar system and star constellations; we can fly from Earth to the outer galaxies using virtual reality-like technology," says Mak. "Our system also predicts what might happen in the solar system, or the universe, in the future.

CENTRO DE CIENCIA DE MACAU MACAO

Stand above the Arctic Circle and witness the most brilliant auroras on Earth and the most powerful explosions in the Solar System; find out how these explosions disrupt electronic equipment, create geomagnetic storms and influence weather patterns; take a ride on a solar blast from the Sun's surface to the Earth's Magnetosphere, and come

Solar power, off-peak consumption key to Macao's green energy ...

The new policy put forward a wide range of

energy prices where using electricity during peak hours (the morning and afternoon) costs up to four times more than off-peak. Since peak hours tend to coincide with the sunniest time of day, the policy might encourage greater use of rooftop solar power systems.

Solar Storms 3D

Stand above the Arctic Circle and witness the most brilliant auroras on Earth and the most powerful explosions in the Solar System; find out how these explosions disrupt electronic equipment, create geomagnetic storms and influence weather patterns; take a ride on a solar blast from the Sun's surface to the Earth's Magnetosphere, and come

"Macao Science 1" satellites officially put into use

As the first such satellites jointly developed by the mainland and Macao, the "Macao Science 1" satellites are expected to significantly improve the country's space magnetic field exploration technologies.

Introduction

The world's first digital dome theatre system that can project stereoscopic images with resolution up to 8000 x 8000 pixels. The system consists of 6 ultra high resolution 4K Pure Laser projectors and 12 powerful graphic computers in synchronization producing super high definition 3D images.

Photovoltaic System (PV) , CEM

As of March 2024, Macau has 9 solar PV systems connected to the network, with a total installed capacity of 3,223 kWp, producing over four million kWh of green energy. It is anticipated that larger photovoltaic systems will be developed in the ...

Buy GLOW Solar System Planetarium Model Kit - Complete Build ...

Create your Own Glow in the Dark Model of the Complete Solar System. Set Includes Sun, Planets, Stand, Posable Arms, Paints, Brush and Accents. Dimensions (assembled) - L30cm x W30cm x H7cm / L12" x W12" x H3" (approx.).
