Energy Storage Systems

Magna develops and manufactures high-quality dual-fuel CNG fuel-tank systems. These fuel tank systems consist of a deep-drawn plastic tank for gasoline and several CNG type IV containers. All the components, including mandatory impact

protection, are accommodated in a single frame, so installing them in the vehicle is quick, simple and safe.

Products ,

The HE3DA battery technology allows flexible adjustment of battery cell parameters to meet the specific requirements of the battery storage system of a battery pack assembled from these cells. Magna Energy Storage launches production of battery cells
