### 10 best sunset locations

Most people associate the cold weather with a Picnic in public gardens or a nice walk by the mesmerising landscape of Malta. However, the Maltese islands also offer various different spots and locations where you can enjoy some of the most beautiful sunsets in the world.

### Chasing the sunset in the best spots in Malta & Gozo

Malta has on average, 300 days of summer yearly, which is great news if you love warmer weather, clear blue skies and stunning sunsets. If you've always wanted to watch the sun go down but haven't found the right place, look no further as we explore Malta's best places to watch and enjoy the sunset.

### The Climate of Malta Month By Month With Temperatures

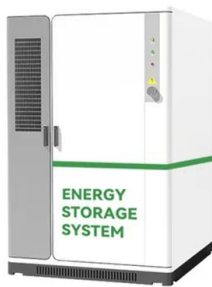

The Maltese winter is at its peak between January and February: since Malta is closer to the equator than the rest of Europe, there are more hours of sunshine per day, so the temperature rarely drops below 10°. The cold is never a big problem in Malta but the wind causes annoyance, especially on days when the wind direction is North or North-East.
