## Marshall Islands power back up for house

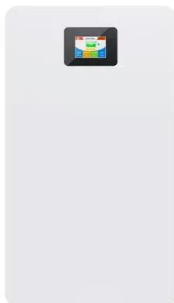

### Marshall Islands declares state of emergency

Due to the emergency, the declaration said the "Cabinet will allocate emergency funding to MEC for the expeditious repair, upgrade, and modernization of the existing power infrastructure on Majuro. This includes the acquisition of additional new generators, backup generators, transmission lines, protection systems and distribution networks."

### Power crisis continues in Majuro

The Marshalls Energy Company imported six container generators to help stabilise power and the hope of the government utility company is that they will be installed and operational by the end of March. These new generators will add five megawatts of power to service Majuro, which uses close to 10 MW at peak periods.

### MEC to Revive its Maintenance Service Program for Backup ...

Majuro, Marshall Islands - MEC announces the revival of its maintenance service program for privately owned backup generators on Majuro. The goal of this initiative is to assist residential and business owners in keeping their backup power systems in optimal condition, ensuring reliable electricity during outages or emergencies.

### MEC's power plant demolition

The container generators that MEC rented earlier this year from the global power supply company Aggreko to keep the lights on in Majuro are costing the power company \$1.2 million a year. Meanwhile, MEC's power station "one" that opened in 1982, is being torn down piece by piece to make way for a new power plant building to house new generators.

## Marshall Islands President Heine signs executive order to fix

President Hilda Heine signed an executive order on Thursday, which states the state of emergency had to be declared due to aging power plants and generators, resulting in frequent and extended power cuts.

## Energy Snapshot Republic of the Marshall Islands

The Marshall Islands are served by two government-owned electric utilities, MEC and KAJUR. MEC coordinates power generation and distribution services for the majority of RMI, while KAJUR, a subsidiary of MEC, services RMI's second largest population center, Ebeye.8 Uniform electric rates are applied across all RMI islands and atolls and range

## New Rental Backup Generators Commissioned, Power Stabilized ...

Majuro, Republic of the Marshall Islands - Marshalls Energy Company (MEC) is pleased to announce the successful installation and commissioning of six additional backup generators in Majuro. This achievement marks a significant milestone in bolstering the island's power stability, effectively addressing past fluctuations in electricity

## Marshall Islands President Heine signs executive order ...

President Hilda Heine signed an executive order on Thursday, which states the state of emergency had to be declared due to aging power plants and generators, resulting in

frequent and extended power cuts.

### **Majuro's power crisis continues**

Unscheduled power outages have been repeatedly happening in Majuro, and power rationing went into effect late last week as MEC power plant staff struggled to repair one of the large engines that anchors power delivery to the capital atoll.
