

Marshall Islands think power

Marshall Islands think power

World Bank \$60m for MEC

The World Bank will pump \$60 million into the Marshalls Energy Company for a mix of alternative energy systems for Majuro, Ebeye and six outer islands where MEC supports power operations. There is no funding in the new grant for new diesel-powered generators.

Renewable Energy in the Marshall Islands

The Government of the Marshall Islands has acquired additional funding for furthering its goal of shifting to renewable energy in the Marshall Islands. The Republic of the Marshall Islands plans to lead the way to a low-carbon energy future and encourages other countries to adopt similar objectives.

MEC's power plant demolition

The Marshall Islands government is injecting \$10 million to the Marshalls Energy Company this fiscal year, with a planned additional \$7 million next fiscal year. The purpose of the funding is to support MEC's need to purchase new engines for the ...
