### Robotics -- Pliant Energy Systems

Above: Velox observing polar bear mother with cubs. Wireless communications while above or near the surface of the water allow real-time control and recording from a safe distance.

### Autonomous Robots Could Mine the Deep Seafloor

Photo: Pliant Energy Systems. Pliant's first prototype, called Velox, can navigate the depths of a swimming pool and the shallow ocean "surf zone" where waves crash into the sand.

## Amphibious Velox robot uses undulating fins to swim and crawl

Pliant Energy Systems has turned one of its green energy technologies into a propulsion system for a swimming robot capable of exploring land and sea.
