Home

DripTech Irrigation is a family business that started in 1995 as a micro-irrigation company. It later expanded to providing for urban water requirements in the form of borehole pumps, storage tanks, pressure tanks, booster pumps and related fittings and controllers.

Micronesia Solar & Battery Storage Distributor

EcoDirect designs and supplies solar + battery projects in Micronesia. Our team has the tools and experience to get your next project designed and delivered. Request a Quote!

Bulawayo Opening Special! We're

We're thrilled to announce the opening of our new Bulawayo branch with an exclusive solar panel offer just for you! Get 580 watts for only \$99--that's just 15c per watt (down from 16.1c)! Don't miss this chance to enjoy powerful savings while stocks last.

Solar Pump Brochure (14.9)

SF2H solar irrigation pump system The SF2H is a robust surface pump designed for smallholder farmers with shallow water sources and high heads, it can pump up to 0.4 litre per second of water at a 15m li using just the power of the sun. Benefits No fuel or electricity costs Robust, and farmer-fixable (as simple as a bicycle)

WIRING

SIZING OF SOLAR GENERATOR The dimensioning of the PV field must ensure sufficient power and voltage inverter for driving the motor properly. The minimum number of panels recommended for the formation of the string is variable depending on the voltage of the connected motor. Below is a short table indicates
