

Microsonic energy device Indonesia

Microsonic energy device Indonesia

Sangulani Maxwell Chikumbutso, the Zimbabwean inventor tells

Max is clear in the Greener Power Machine he said some of the components are bought from different vendors. His invention is what generates the electricity called Microsonic device.

Zim inventor, invents a Microsonic Greener Power Machine

Zimbabwean inventor who is based in the United States Sangulani Maxwell Chikumbutso has invented a greener power machine that generates 50 kilowatts and can ...

Fact Check: Maxwell Chikumbutso's 'Self-Powered'

Although there have been public showcases of some of Chikumbutso's "microsonic energy devices" introduced as early as 2015 in Harare, Zimbabwe, under the company name Saith ...

Ingine Wave Energy Systems

INWAVE is an onshore-type Wave Energy Converter, suitable for shoreline and remote islands, with simple, scalable & sustainable technology. It is competitive with expensive diesel generators. The object of the proposed

feasibility study is to prepare for the feasible construction and commissioning of a Wave Energy Pilot Plant in Nusa Tenggara

Saith Technologies : What is the real innovation / ...

The innovation is the Micro sonic energy device which generate electricity. The Car runs on the same technology. Let me stress that the issue of patents is not the inventor's route.

21st Century Nikola Tesla: Maxwell Chikumbutso

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God ...

Product Model
HJ-ESS-215A(100KW/215KWH)
HJ-ESS-115A(50KW 115KWH)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Zim inventor, invents a Microsonic Greener Power Machine

Zimbabwean inventor who is based in the United States Sangulani Maxwell Chikumbutso has invented a greener power machine that generates 50 kilowatts and can power 10 homes sharing 5 kilowatts each. The generator creates electricity without using any kind of fuel something that is believed to be physically impossible by physics. In a Facebook post the ...

Saith Power - Saith Group

It is powered by a Micro-Sonic Energy Device (MSED). The MSED is a technology that generates electrical power by converting high radio frequency energy directly into electricity. The MSED is both a renewable energy with ...

Maxwell Chikumbutso's Game-Changing Free Energy Devices!

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God put in the air, the radio frequency".

Maxwell Chikumbutso's Game-Changing Free Energy Devices!

Will Chikumbutso'S Inventions End Use of Fossil Fuels?Chikumbutso'S Electric Car Doesn'T Need to Be Charged!Chikumbutso Moved to California in 2018Saith Technologies Will Be on NY Stock Exchange!The saith StoryFoster explained in Thrive II that about 95% of free energy devices he has investigated failed to perform as claimed. However, when he learned about an inventor in Africa who claimed to have built a car, a helicopter, and a generator that run on radio frequencies - a true free energy device that keeps batteries consistently charged - Foster was int naturalblaze

Fact Check: Maxwell

Chikumbutso's 'Self-Powered

: Inventor Maxwell Chikumbutso has developed a way to harvest energy from radio waves to power an electric car that never needs charging

Sangulani Maxwell Chikumbutso, the Zimbabwean ...

Max is clear in the Greener Power Machine he said some of the components are bought from different vendors. His invention is what generates the electricity called Microsonic device.

Fact Check: Maxwell Chikumbutso's 'Self-Powered

Although there have been public showcases of some of Chikumbutso's "microsonic energy devices" introduced as early as 2015 in Harare, Zimbabwe, under the company name Saith Technologies, there is no evidence of independent research to document if, or how, this green power technology works.

Zim firm launches the world's first self -powered

He has invented a self-powered generator that is powered by a micro-sonic energy device, a device that converts radio frequency energy directly into electricity.

Saith Technologies : What is the real innovation / invention?

The innovation is the Micro sonic energy device

which generate electricity. The Car runs on the same technology. Let me stress that the issue of patents is not the inventor's route.

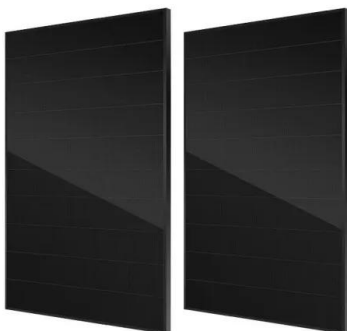

21st Century Nikola Tesla: Maxwell Chikumbutso

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God put in the air, the radio frequency". He explained that because the machine does not run on solar energy, it is not affected by

Saith Power - Saith Group

It is powered by a Micro-Sonic Energy Device (MSED). The MSED is a technology that generates electrical power by converting high radio frequency energy directly into electricity. The MSED is both a renewable energy with Zero Emmission.

Ingine Wave Energy Systems

INWAVE is an onshore-type Wave Energy Converter, suitable for shoreline and remote islands, with simple, scalable & sustainable technology. It is competitive with expensive diesel ...
