

Microsonic energy device Malawi

Overview

Foster explained in Thrive II that about 95% of free energy devices he has investigated failed to perform as claimed. However, when he learned about an inventor in Africa who claimed to have built a car, a helicopter, and a generator that run on radio frequencies – a true free energy device that keeps batteries consistently.

Man One UPS Tesla By Inventing An Electric System That Charges Itself, says: Radio Frequencies or the Free Energy Solution for Entire Cities –.

Donald Trump, USA Snatch Top Zimbabwean Inventor Maxwell Chikumbutsosays: The article shows what a savvy and focused businessman Chikumbutso is.

10 Things You Need To Know About Saith Technologies Founder and Inventor Maxwell Chikumbutsopoints out: “Chikumbutso is undoubtedly going to be a household name across the world.” It explains that growing up.

School dropout invents green generatoris a 2015 article which points out: Zim innovator breaks into global hi-tech commercial sectorsays:

Microsonic energy device Malawi

21st century Nikola Tesla: Maxwell Chikumbutso

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God ...

Fact Check: Maxwell Chikumbutso's 'Self-Powered

Although there have been public showcases of some of Chikumbutso's "microsonic energy devices" introduced as early as 2015 in Harare, Zimbabwe, under the company name Saith Technologies, there is no evidence of independent research to document if, or how, this green power technology works.

Zim inventor, invents a Microsonic Greener Power Machine

Zimbabwean inventor who is based in the United States Sangulani Maxwell Chikumbutso has invented a greener power machine that generates 50 kilowatts and can ...

Zim inventor, invents a Microsonic Greener Power Machine

Zimbabwean inventor who is based in the United States Sangulani Maxwell Chikumbutso has invented a greener power machine that

generates 50 kilowatts and can power 10 homes sharing 5 kilowatts each. The generator creates electricity without using any kind of fuel something that is believed to be physically impossible by physics. In a Facebook post the ...

Zim firm launches the world's first self -powered

He has invented a self-powered generator that is powered by a micro-sonic energy device, a device that converts radio frequency energy directly into electricity.

21st century Nikola Tesla: Maxwell Chikumbutso

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God put in the air, the radio frequency". He explained that because the machine does not run on solar energy, it is not affected by

Fact Check: Maxwell Chikumbutso's 'Self-Powered

Although there have been public showcases of some of Chikumbutso's "microsonic energy devices" introduced as early as 2015 in Harare, Zimbabwe, under the company name Saith ...

SOURCE ENERGY: Maxwell Chikumbutso

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God ...

Sangulani Maxwell Chikumbutso, the Zimbabwean inventor tells

Max is clear in the Greener Power Machine he said some of the components are bought from different vendors. His invention is what generates the electricity called Microsonic device.

SOURCE ENERGY: Maxwell Chikumbutso

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God put in the air, the radio frequency". He explained that because the machine does not run on solar energy, it is not affected by

Maxwell Chikumbutso's Game-Changing Free Energy Devices!

Chikumbutso explained that his generator is a "Microsonic Energy Device". It generates half a megawatt which can power about 300 homes. Chikumbutso said the generator is powered by "the natural energy that God put in the air, the radio frequency". He explained that because the machine does not run on solar energy, it is not

affected by

Saith Power - Saith Group

It is powered by a Micro-Sonic Energy Device (MSED). The MSED is a technology that generates electrical power by converting high radio frequency energy directly into electricity. The MSED is both a renewable energy with ...

Sangulani Maxwell Chikumbutso, the Zimbabwean ...

Max is clear in the Greener Power Machine he said some of the components are bought from different vendors. His invention is what generates the electricity called Microsonic device.

Saith Power - Saith Group

It is powered by a Micro-Sonic Energy Device (MSED). The MSED is a technology that generates electrical power by converting high radio frequency energy directly into electricity. The MSED is both a renewable energy with Zero Emission.
