

# **Minutes of the european residential solar container experts meeting**

## Overview

---

On this page you will find the latest minutes. Consult the search function for all available minutes. Consult the meeting documents for further information. Some of these documents might not be available in your language, so another language version will be suggested. A presentation on simulation software from the previous meeting is mentioned: The minutes incorrectly referenced "certified software." The correct term should be "qualified software," emphasizing that each nation should determine its own criteria while ensuring compatibility for exchanging simulation. The minutes serve as a summary of the discussions and decisions taken in the committee meetings. They are generally adopted at the start of the following committee meeting. On this page you will find the latest minutes. Consult the search function for all available minutes. Consult the meeting. The Chair welcomes the participants to the 31th GC ESC meeting and reviews the participants list to ensure that only members of the Committee or/and alternates that have informed the Chair are present or connected. The agenda is presented and approved (available here). The Chair asks for any. The Chair welcomes the participants to the 30th GC ESC meeting. The agenda is presented and approved (available here).
