

Moixa energy Benin

Overview

Moixa is a British cleantech company that develops software and hardware to optimise use of renewable energy. They produce smart batteries that are paired with residential solar panels. The company also designs "GridShare" Software which optimises battery systems, and can also be used to create virtual power plants (VPP) with other batteries, as in the work they do in Japan with ITOCH.

Moixa

Moixa is a smart battery company that allows utilities to manage energy-storage assets. The company serves energy providers, grid operators, governments, and landlords. Moixa was founded in 2005 and is based in London, U.K.

Moixa acquired by Lunar Energy

Moixa announced today it has been acquired by newly launched Lunar Energy, a US-based company with a mission to electrify the home and provide energy independence to millions worldwide. Lunar will leverage and scale Moixa's GridShare software to manage batteries across Europe, Japan, the US and beyond.
