"The facilities, which are located in Côte-d'Or, Haute-Vienne, Landes and Gard, will generate a total of 65,000 MWh per year, or around 12% of the Principality of Monaco's electricity consumption." By the end of 2021, M.E.R. will own 15 photovoltaic power stations.

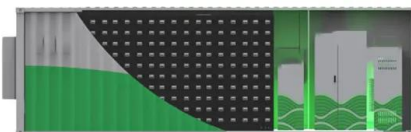

"Monaco is investing in solar"

The aim is to invest in renewable electricity production assets outside Monaco. The Minister emphasised: "The reason we are seeking to develop or purchase green power stations abroad, primarily in France for the time being, is to increase the share of green electricity we import and to safeguard, over the long term, the cost of supplying
