### Services

Discover the power of personalized solar energy solutions with LESSO. Join hands with us to illuminate a brighter and more sustainable future, one project at a time. The LESSO Centre for New Energy Projects is a global centre for creativity, expertise, and business solutions.

### Solar Panel, Lithium Battery, Wind Energy

LESSO Solar is a comprehensive new energy group specializing in research, production, sales, and service. Our business includes centralized ground-mounted, industrial, commercial, and residential solar solutions.

### Effective results are shown by the combination of new energy

In the field of developing new energy and ecological integration, the novel approach to sand and sand control model has been recognized. The Dengkou photovoltaic sand control project will enter its third and fourth phases in 2022, adding to its experience in solar sand control and advancing its ongoing efforts to build new energy ecological integration.
