Montserrat - A Geothermal Economic Exclusion Zone?

Montserrat would be the first Caribbean island nation to claim 100 percent renewable energy production, and one of only a handful around the world. Most importantly, its local population would enjoy significantly reduced electricity charges, which would produce increased and much needed spending power in other areas of the economy, and in turn

RENEWABLE ENERGY OPPORTUNITIES IN MONTSERRAT, THE ...

miles, Montserrat is the smallest state in the Organisation of Eastern Caribbean States (OECS), yet as a full member of The Caribbean Community and Common Market (CARICOM), offers unique opportunities for commerce and investment, particularly in renewable energy.
