About Us

Not only do we meet the expectations of our customers but we exceed expectations by actively pursuing professional development and staying current in the world of energy. Safety - We emphasize a safe work environment and culture of looking out for the safety and well-being of each other, our customers and our community.

Renewable Energies

Uruguay is the country with the second highest share of renewable energy electricity production (such as solar and wind) globally REN21 (2022), and leader together with Denmark, Ireland and Portugal in terms of wind energy production [1]. Private companies played a crucial role in the energy transformation.
