Eclectic Energy D400 Wind Generator 12 Volt

Eclectic D400 Wind Generator 12 Volt The D400 is a direct-drive wind generator, designed for a variety of marine and terrestrial applications. It is exceptionally quiet and vibration-free in operation. The D400 features a powerful 3-phase alternator, and computer-designed rotor blades optimized for low speed, user friendly operation.

D400 Wind Generator

In a given wind speed and a given electrical output, the D400 rotates at less than one quarter the speed of some competitor units. Combined with its rugged engineering and advanced computer-designed air blades, this makes the ...

D400 Wind Generator - Micro Wind Turbines manufactured by Eclectic

...

Features of the D400. Ideal for mounting on boats or buildings; Virtually silent and vibration free in operation; High efficient and productive at all wind speeds; Low maintenance 'fit and forget' engineering; Attractive, visually pleasing design; Robust constructed for a long service life; Corrosion-resistant materials used throughout

D400

The D400 is extremely efficient by design,

making it the most powerful and productive wind generator of its rotor size currently available. The D400 has been developed specifically to operate in close proximity to people.

Micro Wind Turbines manufactured by Eclectic Energy Ltd

The D400 is a dedicated wind generator, designed for a variety of marine, rooftop or terrestrial applications. It is exceptionally quiet and vibration-free in operation and is also the most efficient and powerful wind generator available at its rotor size.

Micro Wind Turbines manufactured by Eclectic Energy Ltd

The D400 is a dedicated wind generator, designed for a variety of marine, rooftop or terrestrial applications. It is exceptionally quiet and vibration-free in operation and is also the most ...

Eclectic Energy D400 Wind Generator

The D400 is extremely efficient by design, making it the most powerful and productive wind generator of its rotor size currently available. The D400 has been developed specifically to operate in close proximity to people.

D400 Wind Generator

In a given wind speed and a given electrical output, the D400 rotates at less than one quarter the speed of some competitor units. Combined with its rugged engineering and advanced computer-designed air blades, this makes the D400 the most reliable and benign turbine of its class currently available.

Eclectic Energy D400 complete with original controller

The Eclectic Energy D400 is a direct-drive wind generator, designed for a variety of marine, rooftop and terrestrial applications. It is exceptionally quiet and offers a vibration-free operation. Its available in marine coated white. The turbine features a powerful 3-phase alternator which is capable of delivering easily around 400A/h in a

ECLECTIC ENERGY D400

The wind turbine D400 is a production of ECLECTIC ENERGY HQ, a manufacturer from United Kingdom. This manufacturer has been in business since 1999. The rated power of ECLECTIC ENERGY D400 is 0,42 kW. At a wind speed of 2,5 m/s, the wind turbine starts its work. The rotor diameter of the ECLECTIC ENERGY D400 is 1,1 m. The rotor area amounts to 1

Eclectic D400

The D400 features a powerful 3-phase alternator, and computer-designed rotor blades optimised for low speed, user-friendly operation. This innovative machine is extremely efficient in low wind speeds, yet is capable of sustained high power outputs of up to 500 watts

in higher winds. o It is small and light enough to be easily

Eclectic Energy D400 complete with original controller

The Eclectic Energy D400 is a direct-drive wind generator, designed for a variety of marine, rooftop and terrestrial applications. It is exceptionally quiet and offers a vibration-free operation. Its available in marine coated white. The turbine ...

Eclectic Energy D400 Wind Generator

The D400 is extremely efficient by design, making it the most powerful and productive wind generator of its rotor size currently available. The D400 has been developed specifically to ...

Eclectic Energy D400 Wind Generator 12 Volt

Eclectic D400 Wind Generator 12 Volt The D400 is a direct-drive wind generator, designed for a variety of marine and terrestrial applications. It is exceptionally quiet and vibration-free in operation. The D400 features a powerful 3-phase ...

D400 Wind Generator - Micro Wind Turbines manufactured by ...

Features of the D400. Ideal for mounting on boats or buildings; Virtually silent and vibration free in operation; High efficient and productive at all wind speeds; Low maintenance 'fit and forget'

...

Eclectic D400 wind generators:

The D400 is a direct-drive wind generator, designed for a variety of marine, rooftop or terrestrial applications. "The most powerfull turbine at low speed" according to tests made by Practical Boat Owner
