Tree Energy Solutions

Tree Energy Solutions specializes in the production of e-NG (electric natural gas) and operates within the renewable energy sector. The company offers renewable energy to generate green hydrogen, which is then combined with recycled CO2 to create e-NG.

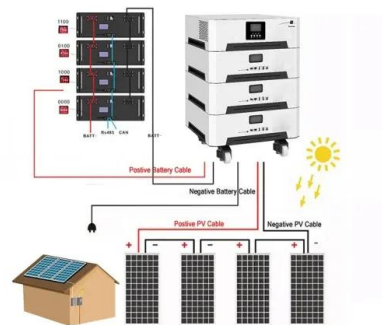

Tree Energy Solutions : Quotes, Address, Contact

We are Tree Energy Solutions (TES), the Worldwide champion for green hydrogen and a disruptive innovator in the energy system. Without abundant green hydrogen in our global energy supply we will not achieve climate goals. It's a recognised zero-carbon energy vector and the knowledge to produce it is there.

Home , TES H2

Die beispielhafte Infrastruktur, politisches Engagement und die technologische Entwicklung des Landes machen Deutschland zum idealen Kandidat, um die führende Rolle in der industriellen Dekarbonisierung zu übernehmen. Als Vorreiter der grünen Energiewende sind wir gerade dabei, unseren ersten Green Energy Hub in Wilhelmshaven aufzubauen.

world's leading e-NG producer , TES H2

Solar energy is rapidly becoming the cheapest source of electricity in history, with prices dipping as low as EUR10 per megawatt-hour (MWh). This drastic reduction in cost, next to the region's ambitious government programs promoting renewable energy, open a world of new possibilities for e-NG production in sun-rich regions.
