

National solar container machinery and equipment mould

Overview

As exclusive manufactures of our patented NAS Moulds Solar mounting systems. Our glass filled polymer components ensure durability, structural integrity, and long-lasting performance, even in coastal and industrial environments. Our solar plastic molding systems use free solar heat from heliostats instead of expensive fossil fuel to make plastic parts. Our Solar Rotational Molding (SRM®) factories are complete systems - just add molds and plastic. Energy for mold rotation is supplied by integrated photovoltaic panels, and. As exclusive manufactures of our patented NAS Moulds Solar mounting systems. Our glass filled polymer components ensure durability, structural integrity, and long-lasting performance, even in coastal and industrial environments. With a focus on strength, safety, and sustainability, we provide. IMS is currently running a sale! Check out the Promo Page. Would you like a copy of our catalog in print?
