

# **National solar container policies are intensively released**

## Overview

---

September 2025 brings major US solar policy shifts, from ITC guidance and tariffs to state battles over net metering, storage, and permitting. Solar policy – The U.S. solar industry entered September with a wave of major policy developments at the federal and state levels. From revised federal guidance on the Investment Tax Credit (ITC) to state battles over net metering and renewable standards, these updates will shape the trajectory of. — Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the reliability of America’s electric grid with solar and storage technologies. As the Trump Administration. The confluence of an uncertain future for the Inflation Reduction Act (IRA), escalating import tariffs and evolving state-level responses threaten to reshape the economic and growth trajectory of both commercial and industrial (C&I) and community solar projects. This article outlines the core. On August 15, the Dept. of the Treasury released new solar ITC safe harbor guidance in response to a July executive order from President Donald Trump. The new guidance restricts projects larger than 1.5 MW from using the 5% safe harbor — requiring big projects to use the Physical Work Test to safe. During the week of July 28, the Trump administration unleashed a new burst of actions aimed squarely at blocking wind and solar energy with the announcement of two new secretarial orders (SO) and three new policies by the Department of the Interior (DOI), plus one from the Department of. The document lists eight policy areas that SEIA said are ‘critical’ for local, state and federal authorities . Image: Erlend Bjørtvedt, Wikimedia Commons. The US Solar Energy Industries Association (SEIA) has released a policy blueprint that it claims would “strengthen the reliability of America’s.

## National solar container policies are intensively released

### Solar Market Insight Report Q3 2025 - SEIA

This was the segment's lowest quarter since Q1 2021. Community solar volumes continue to wane as project pipelines in major markets with supportive policies are dwindling, with no notable ...

### National Environmental Policy Act Implementing Procedures

The U.S. Department of Energy (DOE or the Department) proposes to amend its implementing procedures (regulations) governing compliance with the National Environmental Policy ...

### Implications of Federal Policy Changes on the U.S. Distributed Solar

As the United States grapples with shifting political winds, developers in the distributed solar and storage market are facing a potential policy storm.

## Investing in a Clean Energy Future: Solar Energy Research, ...

According to preliminary results of an upcoming analysis by the National Renewable Energy Laboratory (NREL), to reach a largely decarbonized electricity sector by 2035, solar deployment would need to ...

## NEW SOLAR ENERGY INSTALLATION AT EAST COAST'S ...

The Port Authority of New York and New Jersey, Port Newark Container Terminal (PNCT) and the city of Newark today announced the completion of a 7.2 megawatt (MW) solar ...

## SEIA unveils policy agenda to expand US solar, storage and grid reforms

The new policy agenda details actions for local, state and federal leaders to take to strengthen the US electric grid using solar and storage technologies.

## Solar Permitting Guidebook 4th Edition

3 These sections recommend a streamlined local permitting process for small, simple solar PV and solar water heating installations (including both solar domestic water Part heating ...

## **REPORT: Solar and Storage Dominate New Power Additions in First ...**

Last week, SEIA released a grid reliability policy agenda that outlines the critical actions that local, state, and federal leaders must take to strengthen the reliability of America's electric grid ...

## **The Solar Policy Scoop: September 2025**

U.S. grid interconnection agreements reached historic highs in 2024, surging 33% to 75 GW due to new federal regulations aimed at streamlining the process, according to a new report from ...

## **How Trump's First Year Reshaped U.S. Energy and Climate Policy**

A new national security strategy the Trump administration released this month emphasizes the direction the United States will take for at least the next three years.

## **Solar and Storage Industry Releases Policy Agenda to Strengthen ...**

In July, SEIA launched a new grassroots advocacy campaign to mobilize Americans nationwide to urge state officials to support policies that strengthen the reliability and security of our ...

## Policies at Cross-Purposes: U.S. Trade Policy Creates Cloudy Picture

The Biden administration has made the deployment of solar energy a key component of its plans to battle climate change. From utilities to investors to

## Summary of national industrial and commercial solar container policies

National Survey Report of PV Power Applications PVPS 202 in tion", industrial and commercial distributed, and residential PV. With the advancement of the power market and the adjustment of ...

## Biden-Harris Administration Announces Significant Progress to

...

The Department today published a draft analysis of the Utility-Scale Solar Energy Programmatic Environmental Impact Statement (known as the updated Western Solar Plan), which ...

## Solar Energy Toolkit: The Federal and State Context: Policies ...

Several legislative extensions have kept the ITC in place over the past two decades. However, the 2025 passage of the One Big Beautiful Bill Act (OBBBA) rapidly phases out the ITC for ...

## ENSURING A NATIONAL POLICY FRAMEWORK FOR ARTIFICIAL ...

It is the policy of the United States to sustain and enhance the United States' global AI dominance through a minimally burdensome national policy framework for AI.

## Solar Energy Toolkit: The Federal and State Context: ...

Updated August 2025 Local governments have many tools at their disposal to influence solar energy development. At the same time, decisions made at the ...
