

Nelinor grid battery Saint Barthélemy

Neliner grid battery Saint Barthélemy

Neliner , Aalto University

At Neliner, we believe that energy should be accessible to all, without compromising the environment. With our flagship product, the Grid Battery, we offer a game-changing solution that empowers users to lower their energy bills while actively contributing to the reduction of carbon emissions.

Grid Battery

Grid Battery will discharge power that is enough to cover consumption over all the three phases. The utility power meter will calculate the net over the three phases, which means Grid Battery can cover consumption even if the appliance is connected to a different phase.

Neliner introduces the world's first plug& play electricity storage

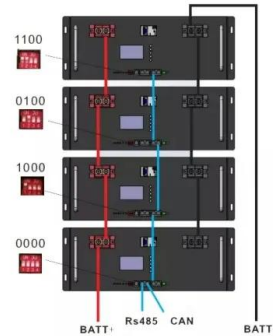

To measure the startup's impact on sustainability, Neliner focuses on the home battery, which stores excess renewable energy from big-scale wind farms and/or from locally produced renewable energy. This energy is released at the time of need, allowing the grid to avoid high-emission energy production peaks.

Neliner reveals world's first energy storage battery powered by AI

Neliner, a startup specialising in energy solutions, announced the world's first energy

storage battery powered by AI. This remarkable breakthrough not only revolutionises the power storage industry, but also reflects Neliner's commitment to promoting greener and more sustainable energy usage.

Get Affordable and Green Energy with Neliner's Grid Battery

GRID BATTERY is an innovative energy storage system designed to store excess renewable energy for residential and commercial use, offering a practical solution to lower energy bills and promote sustainable living

Grid Battery working with already existing solar

We recommended our Grid Battery, a game-changing technology that allowed him to store excess solar energy during the day and use it during the evening and night. To do this, he selected the options in the application Charging Logic: Excess Solar Production and Discharging Logic: Cover Own Consumption.

Neliner

Download Neliner - Model GES7-P2 - Grid Battery - Brochure. Available operating modes; Using Neliner mobile app, you can select the charging and discharging logic. Here is what is needed for each mode:
