

New solar container project in cambridge

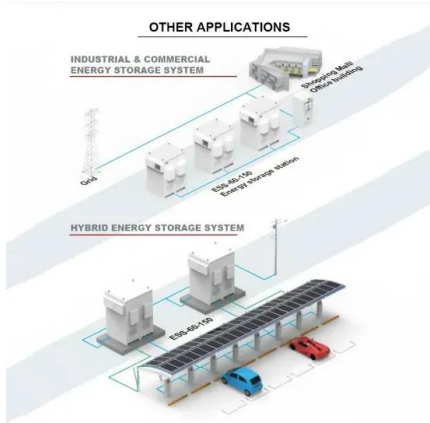

Overview

Construction has begun on a pioneering renewable energy solar park to power electric bin lorries for Cambridge and South Cambridgeshire. Construction has begun on a pioneering renewable energy solar park to power electric bin lorries for Cambridge and South Cambridgeshire. The £6.1 million scheme is jointly funded by Cambridge City Council, South Cambridgeshire District Council, and the Cambridgeshire and Peterborough Combined. Construction has begun on a pioneering renewable energy solar park to power electric bin lorries for Cambridge and South Cambridgeshire. The £6.1 million scheme will see the installation of a one-megawatt solar system paired with a battery that can store enough energy to keep operations running. VEV is proud to be partnering with local authorities in Greater Cambridge on a pioneering renewable energy project to power the next generation of electric bin lorries and help future-proof waste and recycling collections in Cambridge and South Cambridgeshire. Construction of the Waterbeach. Local authorities in Greater Cambridge have partnered with Vev on a renewable energy project to power the next generation of electric bin lorries. Construction of the Waterbeach Renewable Energy Network (Wren) is well underway, bringing together a 1MW solar system with 2MWh battery storage to meet.

New solar container project in cambridge

'Huge concerns' about plans for new Cambs solar farm that could be

People have "huge concerns" about plans to build a new solar farm in Cambridgeshire that could be bigger than Sunnica, a councillor has said. Councillor Alan Sharp (Conservative) said ...
