

# **New solar container project in the west**

## Overview

---

Arevon Energy 's Eland Solar-plus-Storage Project combines 758 megawatts (MWdc) of solar with 300 MW/1,200 megawatt hours of battery storage. Eland 1 reached commercial operation in December 2024, and Eland 2 recently commenced full operation. There are more than 8,200 major solar projects currently in the database, representing over 347 GWdc of capacity. There are over 1,350 major energy storage projects currently in the database, representing more than 108,000 MWh of capacity. The list shows that there are more than 185 GWdc of major. Westlands Water District approved 21 gigawatts of solar and batteries on water-parched fields in the Central Valley, giving farmers a way to profit from fallow land. Out in the fertile yet water-constrained farmlands of California's western Central Valley, a massive solar, battery, and power grid. One of the US's largest solar + battery storage projects is now fully online in Mojave, California. Arevon Energy 's Eland Solar-plus-Storage Project combines 758 megawatts (MWdc) of solar with 300 MW/1,200 megawatt hours of battery storage. Eland 1 reached commercial operation in December 2024. Each month, we track projects in development and update our list of the largest solar projects expected to come online in California. As of January 2026, there are 273 solar projects in development in California, according to Cleanview's project tracker. Their total planned capacity is 58,812 MW. Project will Provide Enough Clean Energy to Power More than 266,000 Homes Each Year, Propel L.A. Forward in Transition to 100% Clean Energy by 2035 MOJAVE, CA — Mayor Karen Bass today announced the completion of the Eland Solar-plus-Storage Center project, one of the largest solar and battery. Committed to Restoring America's Energy Dominance.
